Kod EAN	1200130015274

Opis produktu

The JBL Wave Beam 2 wireless in-ear headphones are a TWS model with active noise cancellation, Smart Ambient technology, and JBL Pure Bass sound. 8 mm dynamic drivers, four microphones, Bluetooth 5.3, and up to 40 hours of playback with the case make these headphones ideal for listening to music, calls, work, and everyday multimedia use.

JBL Pure Bass sound delivers clear audio with stronger bass. The 8 mm dynamic drivers are ideal for listening to music, podcasts, watching movies, and using multimedia apps.

Active Noise Cancellation ANC helps reduce distracting ambient noise. The Smart Ambient feature lets you control how much outside sound reaches you, so you can stay in touch with your surroundings without taking the headphones out.

Four microphones support clear voice calls. Two microphones in each earbud pick up your voice and help reduce ambient noise, making calls more comfortable while you are on the go, at work, or travelling.

Bluetooth 5.3 and multipoint connection enable a stable wireless connection and allow the headphones to be paired with two devices simultaneously. Fast Pair by Google and Swift Pair by Microsoft make it easy to quickly pair with compatible devices.

Up to 40 hours of playback with the case lets you use the headphones for many hours without frequent recharging. The earbuds themselves offer up to 10 hours of playback with ANC off or up to 8 hours with ANC on, while a 10-minute quick charge gives you up to 3 hours of listening time.

IP54 resistance protects the headphones from dust and splashes, so you can use them while walking, commuting, or doing light activities. The charging case has IPX2 resistance.

The JBL Headphones app allows you to adjust sound settings, choose an equalizer, and access additional features. This is a convenient solution for users who want to customise their headphones to their own preferences.

Specifications:

Brand: JBL

Type: TWS wireless earbuds

Model: Wave Beam 2

Connectivity: Bluetooth 5.3

Bluetooth profiles: A2DP V1.4, AVRCP V1.6.2, HFP V1.8

Bluetooth band: 2.4 GHz – 2.4835 GHz
